

WOMAN'S LIVES TO RESCUE HER

Miss Ruth Moody of Washington, D. C., Lanes Life While Swimming Near Port Byron.

Miss Ruth Moody of Washington, D. C., was drowned in the Mississippi river, about one mile north of Port Byron at 5 o'clock yesterday afternoon, and seven other members of a party of bathers nearly lost their lives trying to rescue those who were unable to swim.

Miss Moody, who was 19 years old, had been visiting her uncle and aunt, Mr. and Mrs. Jacob Moody, 1235 Thirteenth street, Moline.

Sixteen young men and women were in the party. Nine of them were wading in three feet of water. Suddenly eight of them dropped off into the channel which is said to be 15 feet deep at that point.

Those who were near to death by drowning during the rescue work:

Philip Mahoney, Keith Haley, Jacob Moody, Joseph Moody, Charles Sollo and Nora Anstetter.

Jacob Moody went down twice before he was taken to shore in a boat by Philip Mahoney.

Mr. Moody had made a valiant effort to save his niece. He and the young lady's brother, Joseph, had swum with her part way to shore, but the high wind and strong current made rescue work difficult and they were forced to release their hold on her. The brother, exhausted and gasping, was rescued by Charles Sollo, who also took Keith Haley to shore, after the latter had spent himself in attempting to save the life of Miss Moody and her uncle.

Miss Blanche Peacock, who was wading with the others, turned back when she heard her companions scream and sink below the surface of the water.

Miss Letha O'Rourke, who was rescued by Keith Haley, and her brother Robert was taken to shore by Sollo.

Twenty-five minutes after Miss Moody sank her body was found on the opposite side of the channel not far from where she went down. Dr. Bruner of Port Byron was summoned and Mrs. M. L. Bunde of Davenport, matron at the Y. M. C. A. summer camp, assisted in resuscitation. The palmator of the Moline police department was also used, but to no avail.

The inquest will be held at the Bernard funeral home at 7:30 o'clock this evening.

Miss Moody had been visiting in Moline for about a month. She is survived by her parents and two married sisters in Washington, and her brother and her aunt and uncle of Moline.

MAKE ESTIMATE ON PARK ROADS

Cost of Constructing Lincoln Grounds Highway Doubled First Approximation.

Estimate on the construction of a 24-foot road through Lincoln park has been made by Wallace Treichler, city engineer, at request of the city park board and Chris Gatzler, superintendent of city parks.

Laying of such a concrete road will cost approximately \$23,000, Mr. Treichler estimates. This figure is twice as much as the original estimate made by the board. The road as planned is to extend through the park from Thirty-ninth to Forty-second streets, being the only highway through the grounds, which has become a very popular picnic spot during the last several years.

Bids will be called for shortly, Mr. Gatzler said, and the contract for the work can start soon and the passage be used in a few months.

School teachers represent 50 per cent of all the women engaged in manual occupations in the United States.

A SWEET LITTLE BABY BOY

Makes a Bright Spot in Every Home. A Comfort in Years to Come

Park Rapids, Minnesota. "I have taken your medicine—Lidia E. Pinkham's Vegetable Compound—when I was a girl for pains and before and after my marriage. I now have a sweet little baby boy and will send you his picture if you wish to publish it. My sisters also take your medicine and find it a great relief, and I recommend it to those who suffer before their babies are born."—Mrs. Wm. Johnson, Box 100, Park Rapids, Minn.

To marry and arrive at middle age without children is a great disappointment to many women. Think of the joy and comfort other women have in their children as they grow up.

Lidia E. Pinkham's Vegetable Compound has helped to bring great happiness to many families by restoring women to health. Often the reason for this is due to a run down condition of the wife, which may be cured by Lidia E. Pinkham's Vegetable Compound. It brought health and happiness to the home of Mrs. Johnson. Why not to yours?

The Argus' Business Review

Editorial Department of the Argus, Rock Island, Ill., presents this special feature of the Argus, giving business news and features of interest and importance to the reader and community.

BOON.

Rock Island, July 3.—The local supplies of bituminous coal in Rock Island have been well used up and the coal situation is attracting more and more attention locally. If the strike continues several more weeks, manufacturing curtailment will begin. Except for this, however, the outlook in New England is encouraging. Industrial activity was slightly greater in June than in May despite the seasonal tendency toward slowing down. The woolen and cotton mills, except where there are labor troubles, are fairly busy and are making money. There is a feeling in textile circles that the backbone of the strike has been broken, although manufacturing is being resumed very slowly in the big New Hampshire and Rhode Island mills.

The metal trades show steady improvement, although sales of machinery are still below normal. The number of demands for new equipment are very gratifying. Leather, shoe and textile manufacturing, a number of companies making automobiles parts and a number of paper mills have entered the market for new machinery and in some cases have made substantial purchases.

Activity in the boot and shoe factories have been increasing for several weeks and a normal fall business is looked forward to for the first time in two years. The paper industry, on the other hand, slowed down somewhat during the latter part of June.

PORT WORTH.

Fort Worth, July 3.—Hot, dry weather, such as has obtained the latter part of June, has raised the hopes of farmers, merchants and bankers throughout the Texas cotton belt. The farmers are now engaged in a desperate battle against the devastating boll weevil. The pest made its appearance in the Texas fields earlier this year than ever before and its presence a month ago discouraged all connected with southwestern agriculture. The heat, however, has helped in the campaign to stamp out the weevil. All business men, bankers and cotton growers of this section are entering the second half year with reviving spirits. If the weather continues hot and dry for 30 days it is believed the spread of the scourge will be controlled, and such weather will repair much of the damage already done.

June was one of the best business months known in the southwest in two years. This applies to all lines of retail trade with the possible exception of millinery and wholesaler. Business has done equally as well. Jobbers of automobile accessories were especially pleased with the first months of the summer. The volume of trade was equal to that of two years ago. This, of course, was a direct result of the big increase in automobile sales by retail dealers.

SAN FRANCISCO.

San Francisco, July 3.—The customary summer dullness is absent from this section, although this is the height of the vacation season. Bank clearings, week by week, are registering an increase over those of last year. Both wholesale and retail trade are showing gains of about 15 per cent in comparison to the corresponding period of 1921. Building permits are being issued in increasing volume and nearly all lines of business show improvement. The actual volume of sales in money value is greater in nearly every line than for the same time last year.

Lumber mills are running full time to keep pace with the demand which is coming from all over the country. The movement of a bumper fruit crop is well under way and sales are pouring money into the farm districts. As a result country trade is keeping pace with the movement in the cities.

As a result of the steady building campaign, assisted by easier money rates, the housing situation is less acute, although rents so far have shown little tendency to drop. In financial circles there is less activity in bonds, although new issues are finding a ready market.

Business Topics

Detroit, July 3.—Detroit manufacturers and wholesalers are pleased over the prospect of railroad rate decrease which will abolish the differential existing for some time in favor of Milwaukee and Chicago. Although advances from Detroit to many other cities are less than from those cities to Chicago, such business has been lost by Detroit houses because of the higher rates applying here. The new rates, for example, would reduce the tariff on first class freight from Detroit to Sault Ste. Marie, from \$1.25 a hundred to \$1.16. These reductions, it is claimed, will be in addition to the general reduction recently ordered by the interstate commerce commission.

Chicago, July 3.—There is a decided labor shortage among the steel mills in this district. This is slowing up production and resulting in the piling up of orders. Deliveries are practically impossible to guarantee. Most mills are sold well into October and November. One leading mill is said to have rejected orders for 200,000 tons of steel in the last six weeks. Another mill is offering 48 cents an hour for common laborers. The U. S. Steel company and the largest of the independents, however, are maintaining the 30-cent scale.

Springfield, Mo., July 3.—The attorney-general of Missouri, acting on the demand of the state banks, has instituted proceedings to test the right of national banks to operate branches. The First National bank of St. Louis recently announced plans for the opening of 15 branches, one of which already is in operation.

ANIMAL PRIZE AWARDS LISTED

Prizes for the children's pet contest of the Mississippi Valley Fair and Exposition were announced today as follows by Manager M. E. Bacon:

First—\$20 in gold.
Second—\$15.
Third—\$10.
Fourth—\$5.

Fifth—Two reserved seats for any performance of the fair.

Five other prizes of a reserved seat to any performance of the fair. The contest begins now and lasts until Aug. 1. In order to compete, one must be 16 years of age or under and must have some animal pet. To try for a prize, any child under this age may enter the contest by having his or her picture taken with his or her pet and sending this picture to the Children's Pet Contest of the Mississippi Valley Fair.

The pictures should be accompanied by the name, age and address of the child entering the contest, together with the name of the pet. Manager Bacon is asking the children to send him a little letter in addition to the picture, telling him about the child and the pet, how much they love each other, some of the pet's tricks, how old it is, and other interesting facts.

No entry fee is charged. It is probable that some additional prize for the winners or some honor from the fair association will be conferred on the child who wins.

LAD, INJURED IN AUTO CRASH, IS NOT IDENTIFIED

Six-Year-Old Boy Thrown From Auto; Believed to Have Been Seriously Injured.

A boy, 6 years old, was thrown from an automobile in a collision shortly before noon yesterday at Fourth street and Eighteenth avenue, Moline. The child, severely injured, has not been identified. Neither has the man who took him away. The man driving the car from which the boy was hurled refused to give his name which according to the records was which according to the records was issued to Maurice Hurlburt, rural route 4, Geneseo.

The machine with which the mystery car collided is owned by Mrs. John Tarver of Rock Island. Mrs. Tarver and Ray Powers were in the Tarver machine, Mr. Powers driving. The other car was approaching rapidly. Mr. Powers stopped the Tarver car, but despite this precaution the collision resulted and the boy was thrown out of the machine.

The driver of the Ford stopped to pick up the boy and occupants of the other machine questioned him. He refused to give his name and declared he was taking the lad to the city hospital. No such case was reported at any of the hospitals in Moline and Rock Island.

Both of the machines were slightly damaged.

Budget Meet Called.

Washington.—President Harding called the third semi-annual meeting of the business organization of the government for July 11.

MANAGING EDITOR DAVENPORT TIMES

RALPH J. LEYSON.

Ralph J. Leyson, for the past seven years managing editor of the Muscatine Journal, one of the Lee Syndicate newspapers, has assumed the position as managing editor of the Davenport Times succeeding late James E. Hardman. Mr. Leyson has been connected with the Journal 16 years. He started as a reporter, later became city editor and then managing editor.

Venice, which is built on between 70 and 80 islets, has a population of about 60,000.

KIDDIES STORM THE ARGUS FOR EXPO COUPONS

Three Green Jambars and Demand for Free Tickets Outlines Throughout Day.

Anyone would have known that there is a big show in town, if he had seen the several thousands of children pour into The Argus office late before the appointed hour, to get free tickets for the Trans-Mississippi Exposition and Pageant of Progress.

From 8 o'clock on through the morning hours, children of all ages formed a continuous stream, parading through The Argus office for the coupons. They came in groups of five and six, forming a chain as each member of the little tribe presented himself to the pageant "Santa Claus," so that no member of

the family was forgotten. Four thousand tickets were distributed within three hours.

Many who were unable to get little sister or brother up in time to call at The Argus for the ticket, made a request for the sleepy ones at home and through the generosity of the July "Santa Claus" was given one. There were plenty of tickets for everyone and Arthur Davis' hope that no youngster in the city will miss the exposition seems likely to be fulfilled.

At the exposition grounds this afternoon the children flooded the various booths and the stadium where the 20 acts were given. The clowns were particularly popular, getting in response volumes of laughs from the little ones. Many of the kiddies plan to go to the park this evening with their parents.

Norwegian explorers find that the European continent once extended far north to Nova Zembla.

ASPIRIN

Say "Bayer" and Insist!

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty-two years and proved safe by millions for

Colds
Toothache
Earsache
Neuralgia
Headache
Lumbago
Rheumatism
Pain, Pain
Accept only "Bayer" package which contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.—(Advertisement.)

Independence Day

"Independence" as typified by America, stands for goodness, honesty, dignity and virtue, and as we stand today on the threshold of another historical day, it is with awe and reverence that we proudly look back upon the achievements of this great and glorious republic of ours—achievements that were accomplished not without struggle and sacrifice.

It is with true optimism that we hail the future

"Depression" Is Passing

Trained observers of business declare that conditions are steadily improving. There is business for those who go after it. But all are agreed that a superior quality of salesmanship is demanded.

We believe that nothing will give greater impetus to the return to normal conditions in trade than a wise use of Bell Long-Distance telephone service. It is the personal touch which counts in competitive salesmanship and this touch is obtained in a dignified, effective manner by telephone.

Our "station-to-station" service is quick and reliable and the rates offer a saving of about twenty-five per cent. Bell Lines Reach Everywhere.
